Three pillars of sustainability

corporate sustainability

Sustainability topics follow the three main categories of **Environment**, **Social**, and **Governance** — ESG.

Our comprehensive classification system provides **scope**, **clarity**, and **consistency** for businesses to quickly get answers and holistically embed sustainability across all departments.

Environment

- **Climate change**
- **Energy management**
- **Environmental due diligence**
- **Nature protection**
- **Pollution**
- **Sustainable infrastructure**
- **Sustainable product management**
- **Waste management**
- **Water management**

Social

- **Community involvement**
- **Consumer issues**
- **Diversity and inclusion**
- **Employment practices**
- **Health and safety systems**
- **Human rights**
- **Remediation processes**
- **Social dialogue**
- **Social and human rights due diligence**
- **Training and education**

Governance

- **Business relationships**
- **Business government relationships**
- **Company's leadership**
- **Corporate culture**
- **Corporate misconduct**
- **Economic value generated and distributed**
- **Tax governance**
- **Whistleblower protection**
